SOC-as-a-Service

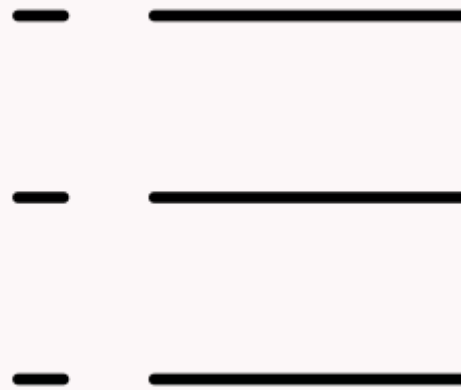

M-THEORY
GROUP

Powerful **Managed** Security Services

Managed Security has too long been the exclusive option of the massive, deep-budgeted, enterprise business. But comprehensive security monitoring and rapid response isn't luxury, it's necessity.

nylon by m-theory is an agile automatic monitoring, alerting and response tool backed by a global team of SOC analysts and built on decades of cybersecurity expertise. **nylon** is a full-service, right-sized solution providing a single pane of glass for all threat feeds: *Always On, Always Enterprise, no matter what size.*

POWERFUL SECURITY

- **Endpoint Monitoring** allows you to detect known security vulnerabilities & suspicious activity.
- **Automated Incident Reporting** instantly uploads logs to the cloud, enabling fast remediation supported by our team of analysts.
- **Remediation Suggestions** empower your security.
- **Detailed Analytics** provide incident reports, identify weaknesses, improve response times & workflow from an in-portal multi-tenant dashboard.

Comprehensive

- **100% of Files & Traffic** inspected
- **Single Portal** for viewing **All Feeds**
- **Full Ticketing Integration** with industry's leading PSA tools
- **Access** to MITRE ATT&CK framework & Threat Intelligence
- **24/7 Monitoring** by Security Analysts in four global 24/7 SOCs

Lightweight

- **Easy to deploy.** nylon is built to get running easily on all endpoints via MSI in an automated process.
- **Non-invasive.** nylon uses a background process, easy to integrate into existing services.
- **Secure Access Provided.** Our MFA-enabled management portal controls access via SSO.

Edge	Status
24/7 Support + Analyst Support	✓
24/7 SOC Facilities	4
SOC2 Compliance	✓
Compare Traffic, Domains & Files to Threat Feeds	✓
EndPoint Agent	✓
Log All Traffic	✓
File Type Analysis (Ransomware)	All Files
Analyze All Ingress / Egress Traffic	✓

FEATURES	Status
Vulnerability Detection	✓
Multi Factor Authentication	✓
IR Available	✓
Windows & MAC Support	✓
Linux Support	On Roadmap
Multi Source Threat Intelligence	✓
User Minimum	None
Remediation Instructions	✓

Monthly Pricing
